SIRIUS
SHINING MOMENTS

Our Living 2023 Collection is inspired by our surrounding nature. Get closer to nature by using the natural power of the sun to charge your products. Our solar assortment will decorate your outdoors solely using sunlight, and create shining moments until sunrise.

Bring nature indoors with the new trending colours of the season, the beautiful summer sky combined with earthy fresh forest tones.

At Sirius our goal is to innovate and ensure great design along with high-quality products, which are increasingly focused on green energy. We wish to drive our products into a greener and healthier indoor climate, without compromising our calm and cozy atmosphere. Therefore we have expanded our green solutions of rechargeable and solar products this year.

Enjoy sundowners by the beach, enchanting dinners on the terrace and unforgettable garden parties with our extensive party light collection, lanterns and LED-candles. Let your imagination run wild – with our collection you are ensured shining moments all summer long.
