

# SPRING/SUMMER 2024

aveva

## HEJ

Welcome to our colorful world. With colors and passion, we like to spread good products that brings a smile to you. All our items are crafted with care to be long-lasting and designed to add a positive vibe to your home. With this as our vision we aim to produce as smart and gentle as possible, to make a low impact on the planet. We started our company 2011 with craft and sustainability as core values but have only in recent years realized the extent of that mission.

– So, what does that mean?

We use natural materials, produce local when possible and build network and cooperate only with craftsmen and partners that share our values. We also believe that design can contribute to a happier world.

– How?

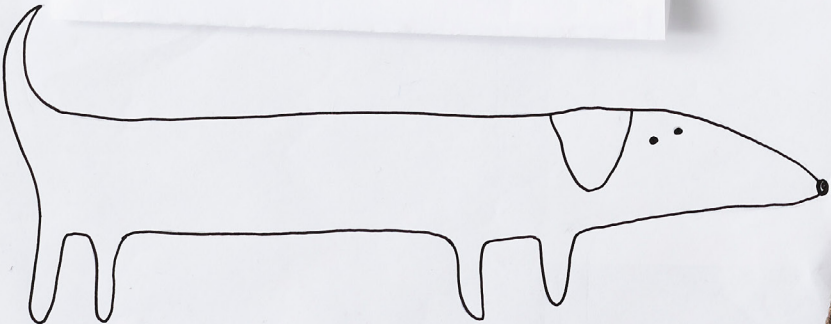

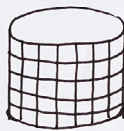

If we have fun creating products, and you enjoy our products for a really long time, we're already a little happier, right?

Let's play, only your own rules apply.

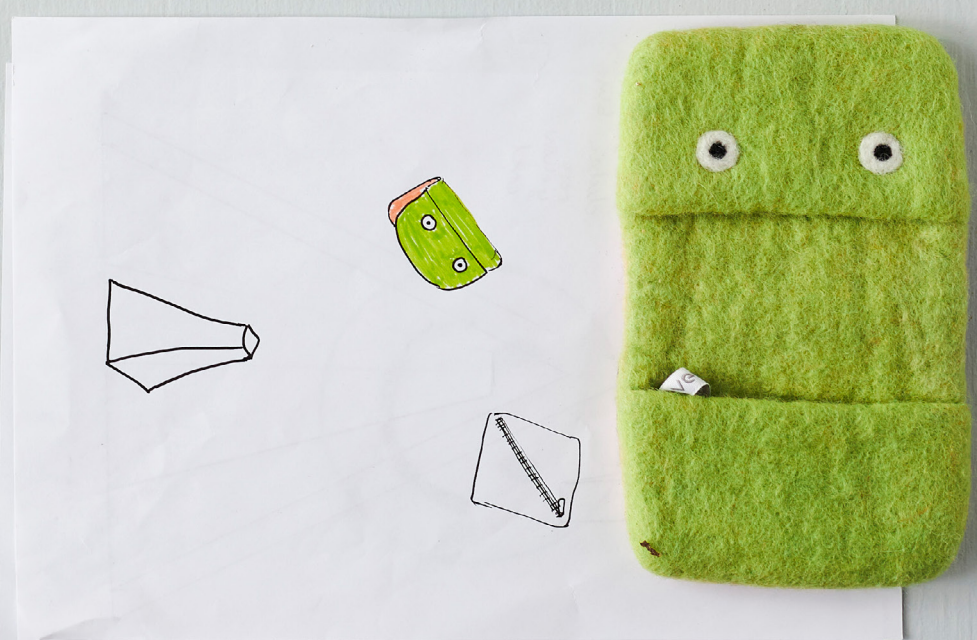

/Eva & Christoph

## FLOWER POTS

The light, soft, round shape gives these FLOWER POTS a wonderful, unique expression.

Place them on the windowsill, on the floor or hang them from the ceiling – together or in a group – and they're bound to radiate good vibes. The inside is coated with natural rubber for a water-resistant effect.

Material: 100% wool and natural rubber

## ENDLESS FLOWERS

We love fresh cut flowers, but sadly, you can only enjoy them for a limited time. On the other hand, our low carbon footprint ENDLESS FLOWERS are made from 100% wool, need no water, are hypo allergenic and stay beautiful for generations.

Material: 100% wool with a bendable metal wire

## WOOL VASE

Brighten up your home with our wool vases, a happy little home for fresh cut flowers. The balanced mix of wool, sand and glass makes the vase stable & waterproof.

Choose between our classic WOOL VASE inspired by natural mountain peaks or our spring news – PYRAMID VASE, colorful and modern, with the spirit of circus amusement, colors and tent.

Material: 100% wool, glass and sand

## DIY BIRDHOUSE

Every year tons of Swedish wool is burned or thrown away. This makes no sense to us, so we started 'The Swedish Wool Project', in a bid to change things.

Birds are smart and creative - who could possibly know more than they do about how and where they want to live? It's no secret that they love wool, but it can be hard to find in the wild.

The DIY Birdhouse is designed to help our feathery friends to build a warm and protective home. Simply hang the DIY BIRDHOUSE from a branch and the birds will do the rest.

Material: 100% wool

## TRIVETS

Handcrafted from 100% wool, every trivet is unique and designed to protect your surface from burns and other marks. Soft, stain and heat resistant TRIVETS that bring color to your table. Crafted from 100% high quality wool and AZO-free colors for a long-lasting affect.

Material: 100% wool

## DOOR MATS

Say hello to our two unique and welcoming door mats!

DOORMAT STOP is made from two fantastic, natural and sustainable materials: wool and hemp. Highly absorbent, wool is ideal for drying wet shoes, while the hemp will help to brush away dirt and grime.

DOOR MAT ROPE is a wonderful craftwork of 100% sumptuous wool, braided by hand for a warm and luxurious welcome.

Material: wool & hemp / 100% wool

## LAMPS

Lighten up your home with our soft wool lamp shades.

LAMP SHADE PLAY is a wool lampshade inspired by the colorful 80s.

LAMP SHADE FOLD is a handfolded lampshade that spread warmth. Handstitched details and colors from nature melting together.

Combine with a vibrant cord, or why not go all out with a gold one?

Material: 100% wool

## DRYER BALLS

Ready to raise your laundry game?

Not only can DRYER BALLS shorten drying time by up to 30%, they also create space between garments which increases the air flow and helps to reduce wrinkles – which means less ironing!

Simply place the balls in the dryer along with your wet garments and start the machine. You may also like to add a few drops of your favourite scent to the balls for wonderfully fresh smelling linen.

Material: 100% wool

DRYER BALLS, WHITE

## LAUNDRY BAG

This tall wool bag is designed to make daily laundry a doddle! It's perfect for small spaces and easy to grab and transport around the house.

Made by hand using 100% wool, the bag is hypoallergenic and long lasting. It's also perfect for laundry since wool can absorb a large quantity of water vapor and is odor resistant.

Material: 100% wool, Swedish leather tag

## EASTER COLLECTION

Brighten up your easter with naturally dyed wool feathers for a scandi style easter tree, in ecological material.

Easter means eggs and we bring you naturally dyed wool eggs – an animal loving way to decorate your easter tree or branch.

Let go of an old tradition in favour of wool birds – an animal friendly and cute easter décor.

LONGING FOR CHRISTMAS ALREADY?

**PAPER EGG, COPPER**  
Ø5xH6,5cm / 2175  
Sold in 5-pack

**LITTLE HANGING BEE**  
L3xW2xH3cm / 2237

## CARE & INFO

### FOLDS AND MISSHAPE

To even out the surface and remove folds or misshapes, use the steam of an iron or a steamer and your product will look like new!

### REMOVE DIRT

Handwash or dry-clean only when needed. Do not machine wash as this will cause shrinkage and will remove the natural oils. Only use clean pots on the trivet to avoid stains from the stove. Read more under "Washing wool".

### COLOR INFO

Colors are AZO-free (no chemicals) and can fade in sunlight. Do not place wet wool on sensitive surfaces as the color can cause stains.

### WASHING WOOL

The natural oils in felted wool act as a natural dirt repellent. Carefully rinse under cold water to remove most stains, or if necessary, hand wash with a mild soap or dry-clean. A damp lint-free cloth can be used to gently wipe away any soap residue.

### DRYING

To dry wet wool use a dry towel and press to absorb water, and then let it air dry.

### FLOWER POTS

Apply natural leather grease to the rubber. Repeat from time to time.

Do not expose the rubber to sunlight.

Do not wash or tumble dry.

Do not keep excess water in the bottom for more than 2-3 days.

### HOW MUCH HEAT?

Although wool is not flammable, it can burn. It is therefore not recommended for items exceeding 200-220 degrees Celsius.

We advise against using cast iron pots with wool since they retain too much heat and can leave grease stains.

## THIS IS HOW WE DO IT

Natural material

Craftsmanship

100% Ecological cotton and azo-free colors

We are proud of what we do, and it is important for us to form a great working relationship with the fantastic suppliers, crafters, and co-workers who contribute to our business. We only ever work with people who share our passion for producing great products and services.

#### THIS INCLUDES:

- Mule-free wool and kind techniques
- Natural and AZO-free colors
- Certified wood
- Organic cotton
- Smart and minimal packaging
- Long lasting products
- Craftsmanship
- Engaging everyone in the process to improve, rather than getting a certificate

#### OUR MATERIALS:

By choosing natural, biodegradable and sustainable materials as well as traditional craft techniques, we work against mass consumption, helping to protect the planet. We prefer to invest in fewer, long-lasting products and only produce what we need.

#### MATERIALS WE LOVE TO USE:

- Wool – 100% natural, renewable and biodegradable
- Swedish wood – a long-lasting, versatile, and natural material
- Lokta paper – environmentally friendly, acid-free paper that is extremely durable
- Hemp – very lasting and doesn't need to be grown with pesticides or poisons
- Cork – hypoallergenic, extremely durable and has fire retardant properties
- Swedish leather – from Tärnsjö garveri. High-quality leather products that last a lifetime, with great respect for our environment, and a sustainable future
- Kapok – Naturally hypoallergenic, an excellent choice for anyone with allergies or sensitivities. Has the benefit of being naturally dust-mite resistant.
- Spelt – also known as dinkel. A natural source that supports the environment. Produced organically in Germany.
