Craft boards

Our collection of CRAFT BOARDS is a range of hand made cutting and serving boards in great design and quality, at competitive and commercial prices.

The products are manufactured from Acacia wood, which is untreated, or in Sheesham wood (also called Indian Rosewood), which have received an oil treatment to bring out the beautiful colours and structure of the wood.

Our CRAFT BOARDS are hand made in India by skilled woodcraftsmen, and have all a unique look and hand made finish, which is the essence of this collection. Every piece is unique in its own way.

In the collection there is a large variety of different sizes and shapes, suited for any serving purpose, if it is for serving tapas, pizza, cheese or cutting big pieces of meat - we have the board you need.

Our CRAFT BOARDS are designed and produced to be used, and are very durable in use, as we use only the highest quality of strong wood, and therefore well suited for daily use in the kitchen.

We have created the CRAFT BOARDS with focus on simple and elegant design, and with focus on competitive prices, with no compromise on quality and design.

We recommend that our boards are treated with natural food oil after wash and use.

All products are exclusively designed by Stuff Design.
